

Fully funded

Secondary Teaching for Mastery

Embedding and Sustaining Work Groups

For departments that have previously participated in Development Work Groups and all Cohort 1-5 Mastery Specialist departments

What is involved?

This project is for departments who participated in a Secondary Teaching for Mastery Development Work Group, or who have a member of their department who is part of the Mastery Specialist Programme. Mastery Advocates will meet regularly throughout the year, and the content of departments' development plans will be the stimulus for how joint work will be devised and undertaken.

Focus will be on the department's planned developments, as well as sharing and critiquing them with a group of schools in a professional learning community.

Who can take part?

Participation is for schools that have either participated in Development Work Groups or the Mastery Specialist Programme. Lead participants continue to be Mastery Advocates, and key teachers from a Mastery Specialist's department. Particular Work Group sessions may also be joined by participants' departmental colleagues.

Find out more

Search **sustaining secondary mastery** online or contact your local Maths Hub:

Work Group Lead is Lindsay Porter. To register your interest please use this link: <https://forms.gle/9cmzeqMUqAZGWckh7>

Benefits

- Your students will develop a deep, secure and connected understanding of the maths they are learning
- You will continue to develop teaching for mastery approaches consistently across your department
- You and your department will collaborate to create a coherent curriculum in a culture of professional learning
- You will develop and implement a coherent and ambitious sustained development plan

The **Work Groups** are fully funded by the Maths Hubs Programme, so are **free** to participating schools.
